# TONOPAH DAILY BONANZA

Today's Silver  
Quotation, 54 1-8

VOL. XI. NO. 1

TONOPAH, NEVADA, TUESDAY EVENING, OCTOBER 24, 1911

PRICE 10 CENTS.

## MAIN WING OF CHINESE ARMY NOW HOPELESSLY DEFEATED

Partial Reports Tell of Capture of Supplies and Ammunition and the Utter Defeat of Imperialist Forces---Rebels Capture Important Point.

SHANGHAI, Oct. 24.—Occupation by revolutionists of two important southern cities, Chang Sha and Nan Chang, was announced in dispatches reaching here early yesterday.

Chang Sha is the capital of the province of Hunan and Nan Chang is the capital of Kiang Si province. Four of China's eighteen provinces are now under revolutionary influence. Sze Chuen, where the movement started; Hupeh, of which Wu Chang is the capital; Hunan and Kiangai.

The fall of Nanking, where the garrison is said to side with the rebels, will give them government of the provinces of Kiangai, Ngau and Hwei. The entire Yang T. valley is succumbing to the revolutionary infection.

The government is preparing for the defense of Shanghai, where the situation is alarming. Americans at various points are appealing to Consul General Wilder here for gunboats to protect their cities. The cruiser Albany will arrive here tomorrow. The New Orleans is now stationed at Nanking.

WASHINGTON, D. C., Oct. 24.—A fleet of American warships, greater than any foreign power or even China is in Chinese water. Twelve vessels—three cruisers, two destroyers, five gunboats, one transport and one collier—commanded by Rear Admiral Murdock, has assembled in the Yang Tse Kiang.

The Chinese legation is advised by cablegram that in two engagements between Chinese Imperial troops of the northern army, the forces of the insurgents, six miles north of Hankow Friday and Saturday, each lasting three hours, the insurgents lost more than 600 killed and wounded, and the government 100 killed and wounded.

SAN FRANCISCO, Oct. 24.—The main army of Chinese government under War Minister Yin Tehang, Ichang, in Hu Peh province, are said to number about 20,000 men.

## WEEK'S PROGRESS IN MINES OF MANHATTAN

A telegram was received last Thursday by F. P. Jayne of the Mineral Hill Consolidated company, stating that the engine and compressor plant will be shipped from San Francisco in a through car and should reach Tonopah some time this week.

The grading is all done for the group of buildings to erected at the mouth of the tunnel and landing and a skid railway is ready to handle the machinery on arrival.

Work in the tunnel on this property has been rushed during the week, and the face is now in 232 feet with over five feet of ledge matter and increasing values. Considerable water is coming in and a large sump has been put in from which water for the plant will be pumped to the supply tank.

In the open cut on top of St. Paul hill the week's work has opened up at a depth of about 20 feet an 18-inch lead carrying fair values.

Another bunch of high-grade ore came from the lower drift run from the shaft on top of Mineral Hill, but the drift is not yet in a sufficient distance to catch the continuation of the high-grade shoot opened at the surface and in the upper drift.

Omer Maris, general manager for the company, returned during the week from a business and pleasure trip to San Francisco and will take charge of the further development of the property, while Mr. Jayne will return to the coast to assume

his duties as secretary of the company.

### White Caps Leases.

At the White Caps lease the work is rushing along under the supervision of Superintendent McCarthy, and the mine is looking better than at any time since the work was started.

The main shaft is down 175 feet and the ore body at that depth is fully as large and possibly larger than at the 80-foot level. A drift was run west on the lead and stoping is now in progress. The vein holds strong and big, and an average value of \$87 has been obtained across the width of nine feet. A grab sample taken across the ledge last week ran \$66.

The lease is now milling 500 tons of ore at the War Eagle mill. The ore is averaging \$40 per ton.

Mining men who have visited the property declare there is between \$25,000 and \$50,000 worth of ore above the 80-foot level.

The lease is now well equipped, having a five-drill compressor, a 25-horsepower electric hoist, one No. 7 Cameron pump, and three machine drills. Twenty men are employed.

### Sly-Green Lease.

A. D. Sly and Harry Green, who have blocks 8 and 9 on the Union 2 claim, last week broke into two feet of ore that will average \$50 per ton, two samples taken having shown values of \$60 and \$40. The ledge runs east and west and dips south. It was encountered in the drift run south at a distance of

## TONOPAH VS. GOLDFIELD FOOT- BALL GAME

The Tonopah High School football team will meet the Goldfield High School boys on the gridiron next Saturday at the gold camp. Our boys have been practicing daily and are very hopeful of bringing home the bacon. A return game is to be played in Tonopah on Thanksgiving day. A large crowd of boosters from our city will accompany the home team to Goldfield next Saturday to root for Tonopah High.

## SECOND TRIAL OF DR. HYDE HAS COMMENCED

KANSAS CITY, Oct. 24.—Dr. Clark B. Hyde was yesterday, for the second time, placed on trial, charged with murdering Colonel T. H. Swope, by poison.

The verdict of the first jury which, on May 16, 1910, found Dr. Hyde guilty and fixed his imprisonment at life, was reversed, and the case remanded for retrial by the Missouri supreme court on April 11 last.

The first tragedy in the Swope home was the death of Moss Hunton, October 1, 1909.

Dr. Hyde was charged with negligence in bleeding him.

Two days later Colonel Swope died in convulsions. Testimony was that Dr. Hyde, a few minutes previously, had given him a capsule alleged by the state to have contained cyanide of potassium and strychnine.

### ELY BURIED.

OXFORD, Iowa, Oct. 24.—The funeral of Eugene Ely, the aviator, who was killed at Macon, Ga., on Thursday, was held at his mother's home here yesterday.

### ALABAMA NEGRO WANTS TO SHOOT UP TOWN

BIRMINGHAM, Ala., Oct. 24.—Frank Harrison, a negro, who yesterday killed former Deputy Sheriff Thomas Copper at Northport, Ala., last night killed Deputy Sheriff Horton and a negro. A posse is on the trail.

## PRESIDENT OF FLORENCE ENROUTE TO GOLDFIELD

The private car, Arcadia, of A. D. Parker, president of the Florence-Mining company of Goldfield, was attached to No. 24 this morning enroute to Goldfield. A meeting of the directors of the company will be held today or tomorrow in that city and a new general manager and superintendent is to be appointed. Mr. Parker is also vice president of the Colorado & Southern railroad.

10 feet. This is the ore body the leasers were expecting to strike, and they state that it gives every indication of being permanent.

### Hoosier Again Busy.

Active development work is again under way at the Hoosier property, located about a mile and a half east of the Consolidated. The shaft is now down 335 feet, as which point a change in the formation leads Superintendent Thomas Baker to believe they are in close proximity to an ore body. The rock now being taken out looks very promising and though on assays have been made, it is believed to carry some values.—Manhattan Post.

## NINE KILLED AND MANY INJURED WHEN MINE EXPLOSION OCCURS

## MANHATTAN TRAVEL IS NOW VERY BRISK

Travel to Manhattan is very brisk these days. There is hardly a day passes but what from three to five auto loads are booked for the gold camp. Few of these passengers return, which speaks well of the development going on at Manhattan. Each day new strikes are being made upon properties that have not been worked in years. Manhattan is surely making good and will become one of the large bullion producing districts of this state.

## JUDGE RENDERS A DECISION IN THE DYNAMITE CASE

LOS ANGELES, Oct. 24.—Firm belief that the Los Angeles Times was destroyed by dynamite is not necessarily a bar to jury service in the McNamara murder case, according to a ruling made by Judge Walter Bordwell yesterday. The judge held that Talesman George W. McKee, who held such view, would, in the opinion of the court, give a fair verdict in the case. There is no known chance that McKee will get on the jury, but yesterday's decision makes it necessary for the defense to use a peremptory challenge to get rid of him.

The ruling is the first on any point considered as of consequence since the trial began and the defense accepted it after a passage of words with the court. The judge's ruling in part follows:

"Juror McKee testified that he had a definite opinion as to the cause of the explosion and that it would require evidence to remove that opinion. He has, however, stated positively that notwithstanding that opinion, which, as he explained, was formed entirely from reading statements in the public journals and public rumor and notoriety, he could act as a juror in this case impartially and fairly upon the matters to be submitted to him.

"I do not think the court is bound by the mere statement of a prospective juror that he could so act. It is a question of fact for the court to determine. But if the court is satisfied either from the juror's statements or the circumstances, which are available that he can act thus fairly and impartially, the court has no discretion, but must allow that the juror is qualified."

### BIRTHDAY PARTY AT THE FOWLER HOME

Miss Grace Fowler celebrated her 13th birthday yesterday by entertaining a number of her young friends. The party lasted from 4 until 7 p. m. yesterday afternoon. The afternoon and early evening was spent with songs, comic sayings and games. A nice luncheon was served and the little folks had the time of their lives. The following young people were present: Lucille Mannix, Dora Joyner, Ruth Connett, Bernice Pengelly, Isabel Davis, Mildred Swinn, Helen Dalzell, Edith Joyner, Blanche Collins, Lucella Roberts, Janie Johns, Dorothy Shidler, Grace Fowler, Delphine Fowler, Lester Fowler.

### COAL FIELDS POLICY IS TO BE ANNOUNCED SOON

CHICAGO, Oct. 24.—Official announcement of the government's policy concerning the Alaskan coal fields is scheduled as the most important feature on the 14th annual session of the American Mining Congress, which will take place October 24 to 28 inclusive.

All kinds of rufing and blinding at the Bonanza.

Fifteen Imprisoned and Half a Score Hurt---Keg of Powder Cause of Disaster --- Fire-damp Ignites When Blasting Material Explodes.

HARRISBURG, Ill., Oct. 24.—Nine men were killed, ten others gravely wounded were carried up by rescuers, and fifteen more were imprisoned by a cave-in, as a result of the explosion of a keg of powder, which ignited black damp yesterday in O'Gara mine No. 9, a mile south of here.

That more lives were not lost was due to the fact that the shift was changing when the explosion occurred. The explosion, although it occurred four hundred feet down in the earth and was muffled by the strata above it was heard here.

Several men, with clothes over their noses and mouths, had themselves lowered down into the pit

and began sending up the dead and injured.

Two men, it was found, had been instantly killed, and were so terribly burned and torn that they could not be identified. Seven others, sent to the surface, were so badly injured that they died within an hour afterwards.

The detonation of the explosion warned the town that an accident had occurred and the fears of the wives and children of the miners were confirmed when they saw two ambulances gallop toward the mine, followed in a few minutes by an auto mobile containing physicians and nurses.

Most of the miners employed by the O'Gara company are Americans, although there also are a number of Poles.

## DEATH RESULTS FROM FIGHTING IN RACE RIOT

HOMES OF NEGROES SEARCHED  
FOR ARMS—TWO MEN DEAD  
AND MANY INJURED.

MUSKOGEE, Okla., Oct. 24.—With two dead and four desperately wounded in yesterday's race riot at Coweta, twenty miles north of Muskogee, state militiamen are at present maintaining martial order in the disturbed town and searching homes of negroes for arms. The soldiers have arrested numerous blacks and many others are under surveillance. The dead:

J. D. BEAVERS, city attorney; shot to death by Ed Suddeth, a negro.

ED SUDDETH, negro, riddled with bullets as the authorities attempted to take him from Coweta.

Seriously hurt:

CARMEN OLIVER, white; wounded during general firing.

STELLAR THOMPSON, white.

ED R THOMAS, a section foreman, attacked early yesterday by a mob of negroes; probably fatally hurt.

When news that the troops were coming spread early yesterday among the negroes and in Coweta and surrounding villages, quiet was restored. However, the local authorities, assisted by soldiers, began searching homes of negro suspects.

Unconfirmed reports stated that two white farmers had been set upon and shot to death by negroes near Coweta. It is rumored that an armed mob of blacks is preparing to march from Red Bird to Coweta tonight.

## FINLANDERS WILL CHALLENGE THE WINNERS

The Finlanders of Tonopah claim they know something about tug-of-war pulling and are confident they can wrestle the victory won by the Tonopah Extension team last Sunday from them. They will issue a challenge to that team in the next few days for \$500 or \$1000 aside. The Finlanders are a sturdy lot of fellows, with plenty of grit and muscle for an endurance contest of this nature.

### DEATH OF A PRIEST.

SACRAMENTO, Oct. 24.—Monsignor T. J. Capel, a world famous Catholic, once private chamberlain to the Pope, is dead here.

## TONOPAH 76 MINING STOCK SELLS RAPIDLY

That Tonopah "76" is going to be one of the most favored of local promotions is becoming more and more evident every day. Since the stock was put out last week several thousand shares have been subscribed for and there is now every prospect that the entire allotment of 100,000 will be spoken for within the next twenty days. A great many of the subscribers are local miners who, because of their familiarity with the ground upon which the claims are located, readily discern its merit and possibilities. To responsible local subscribers special inducements in the purchase of stock are being made, in that they are allowed to make a small deposit on their purchase with the privilege of paying the balance between payday and the 15th of next month.

A meeting of the directors of the company will be held within a few days, at which time it is expected that the site for sinking the shaft will be agreed upon. The company's treasury contains 500,000 shares, and only part of this will be drawn upon as contingencies arise. All promotion and ownership stock has been pooled for a period of sixteen months.

## FOURTH GAME OF WORLD'S SERIES

SHIBE PARK, Philadelphia, Pa., Oct. 24.—The long-awaited-for fourth game of the post series between the New York Giants and the Philadelphia Athletics took place here this afternoon and was attended by the largest crowd of any of the games yet place on the home grounds. Mathewson was on the mound for the Giants, with Meyers receiving him. For Philadelphia, "Big" Bender was on the rubber and Ira Thomas was catching.

Philadelphia won in easy fashion, the Giants playing like a lot of school boys.

The features of the game was the fielding and batting of Collins, Barry, Baker and Oldring. For New York, Meyers, Doyle and Herzog were the stars.

Clubs— R. H. E.  
Philadelphia ..... 4 8 0  
New York ..... 2 4 3

"Silver Bow Bill" is in town looking after the shipment of his winter mining supplies.
